

To get in touch with the wider **participatory mapping community** I would like to suggest interested persons to register on the [ppgis] discussion list. That's the best channel for being updated on PGIS-related matters and where to post questions and share opinions. The global (English) list has ~2500 members. There are also independent chapters exchanging in French, Spanish and Portuguese. Interested people can register via www.ppgis.net

www.iapad.org - main website dealing with Participatory 3D Modelling (P3DM)

www.iapad.org/library - largest online library on participatory mapping practice (gray literature)

www.iapad.org/p3dm-handbook/english-version - Participatory 3-Dimensional Modelling: Guiding Principles and Applications; 2010 edition

www.p3dm.org - Locations where P3DM has been implemented - non exhaustive list

www.ppgis.net/the-practice/good-practice/ PGIS Ethics in the practice (12 language version)

<https://vimeo.com/17290509> - 25 min video about good practice in participatory / community mapping) (En, Fr, Es and Pt versions)
